Ms. Bonnie J. Johrendt, Planner
Grade Crossing Planner - Railroad Section *05-1576-RR-RCP*
Public Utilities Commission of Ohio
180 East Broad Street
Columbus, Ohio, 43266-0573

Dear Ms. Johrendt:

Please reference plans that were recently sent to the state showing an additional track through CR-16 in Montpelier, Williams County, Ohio, DOT: 477 500S.

These plans were modified to reflect changes the railroad proposes at the crossing due to the new track to be constructed through it to the north as part of a company project. The NS proposal includes relocation of warning devices and installation of detection equipment for the new track.

Please handle with PUCO Docketing of the previously supplied documentation describing our treatment of this crossing. It is requested the state review these plans, and if satisfactory, approve them for modification to the existing warning devices. Also, note the railroad intends to fund this project 100%.

If you require additional information, please feel free to contact R. H. Ray of my staff at (404) 529-1234.

Sincerely,
B. L. Sykes
