(M) Nonrecurring Charge for Changing Primary Interexchange Carrier (PIC)

- (1) A nonrecurring charge, as set forth in (2) following, to process a change in Presubscription is bifurcated into four (4) separate nonrecurring charges and applies as follows: (C)

 - (a) A nonrecurring charge, as set forth in (2)(a)(1.) following, applies when the request to change Presubscription is submitted through electronic methods without a request to change the intraLATA primary interexchange carrier (LPIC) on the same line and on the same order. (C)
 - (b) A nonrecurring charge, as set forth in (2)(a)(2.) following, applies when the request to change Presubscription is submitted through manual methods without a request to change the intraLATA primary interexchange carrier (LPIC) on the same line and on the same order. (C)
 - (c) A nonrecurring charge, as set forth in (2)(b)(1.) following, applies when the request to change Presubscription is submitted through electronic methods together with a request to change the LPIC on the same line and on the same order. (C)
 - (d) A nonrecurring charge, as set forth in (2)(b)(2.) following, applies when the request to change Presubscription is submitted through manual methods together with a request to change the LPIC on the same line and on the same order. (C)

As used above, manual methods are (i) personal interaction between a customer, or a person acting on behalf of a customer, and a Telephone Company employee; and (ii) any facsimile or written submissions from a customer, or a person acting on behalf of a customer, to a Telephone Company service center. Electronic methods shall include all other methods. If a request utilizing an electronic method results in manual processing, the electronic nonrecurring charge shall apply upon completion of the request. For orders submitted electronically through customer account record exchange (CARE) transactions, a change to both the PIC and LPIC on the same line will be considered to be on the same order if it is submitted in a single care record for that line.
