PUBLIC UTILITIES COMMISSION of OHIO  
Docketing Division - 10th Floor  
180 East Broad Street  
Columbus, Ohio 43215-3793

Dear Ms. Crockron;

Enclosed please find the amended Subscriber Notice for Automatic Call Back (Repeat Dialing), and Automatic Recall in Case No. 95-1108-TP-COI.

The words **and blocking services** were added to the final paragraph on the notice.

If you have further questions, please let me know.

Sincerely,

A handwritten signature in cursive script, appearing to read "Linda Heckman".

Linda Heckman  
Office Manager

SUBSCRIBER NOTICE

DEC 13 1995  
PUBLIC UTILITIES COMMISSION OHIO  
The following features will be offered to all customers as of February 15, 1996 at no monthly charge and no connection charge. You will be charged \$.50 on a per usage basis PLUS any toll charges that

AUTOMATIC CALL BACK (Repeat Dialing)

Automatically redials the last outgoing number after you activate the service by dialing \*66 from a touch-tone phone, or 1166 from a rotary dial phone. Automatic Call Back (repeat dialing) monitors the busy line and performs a call set-up when both the originating and terminating lines become idle. After activation of the feature, the originating and terminating customers may place other calls without affecting the Automatic Call Back (repeat dialing) service status. This service may also be used to recall a called party after the conversation has been terminated. This service is offered on a universal basis with no monthly charge and no connection charge. You may request access to universal Automatic Call Back (repeat dialing) be blocked. Such blocking will be provided at no charge to the customer.

There will be a usage charge of \$.50 per successful activation. A successful activation is when the Automatic Call Back (repeat dialing) customer receives a ringing tone, even if the party being called does not answer.

AUTOMATIC RECALL

This enables you to return the last incoming call, whether or not it was answered. You dial the activation code of \*69 from a touch-tone phone, or 1169 from a rotary dial phone, and the last incoming call is announced. If the incoming call was placed from a line designated as "private" through the use of per call or per line blocking, the recording will indicate that the number is private, and will announce only the date and time of the call. To activate the Automatic Recall function, dial "1". If the line is busy when the customer activates the service, a confirmation announcement is heard. Hang up and a queuing process begins. For the next thirty minutes both the calling and called parties' lines are checked periodically. The call set-up is made when both the originating and terminating lines are idle. After activation of the feature, the originating and terminating customers may place other calls without affecting the Automatic Recall service status. You may have up to 30 calls stored in the Automatic Recall queue. The call back may be to areas where a toll charge would be applicable.

This feature cannot be activated for all telephone numbers, such as numbers with the 800 or 900 prefixes, or PBX extensions.

Automatic Call Back (repeat dialing) and Automatic Recall will be available February 15, 1996 on all lines with no monthly charge and no connection charge. There will be a \$.50 usage charge. If the call is long distance, you will be billed a toll charge.

For questions on these universal services and blocking services, call our Business Office at 538-6987.
