

**FILE**

**Staff Investigation Report and Recommendation**

**Case No.:** 05-1023-EL-BLN  
**Project:** Tap to Seville Village's Ryan Road Substation  
**Applicant:** American Transmission Systems, Inc.

**Report Date:** 20 September 2005

**Automatic Approval Date:** 1 October 2005 (Letter of Notification process)

**Waiver Requests:** None

**Inspection Date(s):** 30 August 2005  
**Staff Assigned:** J. O'Dell

**Summary of Staff Recommendations (see report text for discussion):**

Application:  Approval [ ] Disapproval [ ] Approval with Conditions  
Waiver: [ ] Approval [ ] Disapproval  Not Applicable

**Summary of Staff Recommended Conditions (see report text for discussion):**

- None

**Projected Docket Closure Date (if automatically approved):** 1 January 2008

**Investigation Report**

**Project Description:** This project would provide an electrical supply for Seville Village's new Ryan Road Substation. Due to a design change in structure type, this Letter of Notification replaces a previous filing (05-775-EL-BLN) that was withdrawn at the Applicant's request. The jurisdictional part of this project requires the installation of two laminated wood pole structures and the removal of an existing pole. Seville Village's municipal electric company will own and install approximately 250 feet of 138 kV transmission line to complete the project.

**Site Description:** The new structures would be centered within the r-o-w of an existing transmission line. Land use in proximity to the project includes industrial, railroad, utility and road uses. This project is located in Seville Village, Medina County.

**Discussion/Comments/Concerns:** The construction of this project should pose only minimal negative social and environmental impacts.
