Re: Case No. 02-1668-GA-CRS

Dear Mr. Price:

Below please find a supplemental response to the application filed by Vectren Retail, LLC, doing business as Vectren Source, LLC ("Source"), in the above-styled proceeding for certification as a natural gas supplier. The description below is directly responsive to the requirements of item C-6 of the Public Utilities Commission of Ohio's ("Commission") application for certification of a natural gas supplier:

Source is an indirect, wholly-owned subsidiary of Vectren Corporation (Vectren), which is a New York Stock Exchange listed company based in Evansville, Indiana. As of the close of the trading day on July 10, 2002, Vectren had an equity market capitalization of approximately \$1.55 Billion. Vectren provides credit support for its non-regulated business operations, which are housed under Vectren Enterprises, Inc., through Vectren Capital Corp. (Capital), a direct Vectren subsidiary which acquires credit in the private debt market primarily by relying upon a support agreement from Vectren. In connection with Source's gas customer choice operations in Ohio, Capital will enable Source to qualify to participate as a vendor in Ohio local distribution company choice programs by procuring on behalf of Source letters of credit, which will be issued under Capital's existing syndicated line of credit. For example, in the Columbia Gas of Ohio choice program, Source is planning to provide Columbia with an approximate \$19 Million letter of credit. Similarly, if necessary for Source to qualify to serve as a vendor in other programs, it would expect to receive such financial support from Capital.

This supplemental response is being provided as a result of discussions held this date with the Commission's Staff and is believed to be directly responsive to the contents of those discussions.

Respectfully,

Ronald E. Christian
