Ms. Kim Wissman  
Ohio Power Siting Board  
Public Utilities Commission of Ohio  
Borden Bldg., 3rd floor  
180 East Broad Street  
Columbus, OH 43266-0573

Dear Ms. Wissman:

**Standard Application as Amended  
Crissinger-Tangy 138 kV Transmission Line Project  
Kirby-Roberts Portion  
Highway Crossing Permits**

**Case No. 91-1229-EL-BTX: Original Application  
Case No. 94-1212-EL-BTX: Crissinger Substation Area Amendment**

The Ohio Power Siting Board (OPSB) granted a Certificate of Environmental Compatibility and Public Need for the project on September 20, 1993, and subsequently granted approval for the project amendments. One of the certificate conditions ordered:

**"That, prior to construction, the Applicant (Ohio Edison) shall obtain all applicable permits and authorizations as required by Federal and State entities at any location where such permit or authorization is required. A copy of each permit or authorization, including terms and conditions, shall be provided to the Board Staff within seven (7) days of receipt.**

Attached is one (1) copy of the required highway crossing permits for two locations on the Kirby-Roberts portion of the Crissinger-Tangy 138 kV transmission line project. These permits apply to the line crossings over S.R. 203 and S.R. 739 in Marion County.

Also attached is a copy of a letter for your files from the Department of the Army regarding the request for a Scioto River aerial crossing permit in Marion County. The Department of the Army has determined this location of the Scioto River is upstream of the navigable limits and therefore does not require a permit.

I'll be glad to answer any questions concerning these matters.

Very truly yours,

T. C. Burgess  
General Power Siting Engineer

STATE OF OHIO  
DEPARTMENT OF TRANSPORTATION  
PERMIT

Subject to all of the terms, conditions and restrictions printed or written below, and on the reverse side hereof, permission is hereby granted to

Ohio Edison Company  
76 S. Main St.  
Akron, Ohio 44308

Install an aerial cable crossing of highway as per plans and specifications attached. The aerial cable will have a minimum clearance equal to or greater than that required by the National Electrical Safety Code. All disturbed terrain shall be restored to original or better condition. Any disturbed areas shall be seeded per Manual of Construction and Materials Specifications Current Edition (Item 655) and excess material removed from site. Any damage to underground drainage or other installations shall be repaired by applicant. All work requiring men or vehicles on the pavement or shoulders shall comply with all requirements of the Ohio Manual of Uniform Traffic Control Devices. Applicant shall also comply with applicable provisions on the reverse side of this permit. This permit is not a substitute for satisfying the rights of any other party that may have an interest in the underlying fee.

LOCATION: In Marion County along & over Route 203; 360 feet south of Route 739.

This permit to be in possession of employees in charge of work at all times. To be shown upon request to any employee of the Department of Transportation

No work shall be done under this permit until the party or parties to whom it is granted shall have communicated with and received instructions from Mr. Mike Bailey, Permit Expediter 363-1251, Ext. 260

District Deputy Director of Transportation or Marion County garage 382-0624

This permit shall be void unless the work herein contemplated shall have been completed before 6-4-96

Dated this 4 day of December, 19 95

Mr. Doyle L. Minich  
Ohio Edison Company  
76 S. Main Street  
Akron, Ohio 44308

Dear Mr. Minich:

I refer to your application received on November 22, 1995, concerning a Department of the Army permit to cross the Scioto River at Mile Point 178.6 with a 138 kV transmission line approximately 700' north of S.R. 739 at Green Camp, Green Camp Township, Marion County, Ohio.

Your activity has been determined to be upstream of the navigable limits of the Scioto River and does not require a permit from the Department of the Army. However, this letter does not obviate the requirement to obtain state or local assent required by law for the activity. If you have any questions concerning the above, please contact Mark A. Taylor of the North Permit Section at 304-529-5210.

Sincerely,

A handwritten signature in cursive script, appearing to read "James M. Richmond", is written over the typed name.

James M. Richmond  
Chief, North Permit Section
