

BEFORE THE PUBLIC UTILITIES COMMISSION OF OHIO

In the Matter of the Application of )  
Brainard Gas Corporation to Change )  
its Depreciation Accrual Rates and ) Case No. 04-1719-GA-AAM  
to Amortize the Depreciation Reserve )  
Adjustment. )

APPLICATION

Applicant, Brainard Gas Corporation, is a public utility subject to the jurisdiction of this Commission, requests authority from your Commission to change its depreciation accrual rates for the reason that the present average service lives and net salvage values will not provide for the adequate depreciation of its property over its estimated useful life. The Applicant's current depreciation accrual rates were not prescribed by the Commission, but instead were set based on Generally Accepted Accounting Principles (GAAP) or the Internal Revenue Service and have been in effect since operations began on January 1, 1999. Attached and marked as Exhibit "A" is a tabulation of the current and proposed depreciation accrual rates for the Applicant's various plant accounts. The Applicant requests that the change in accrual rates be made effective as of January 1, 2004. Attached and marked as Exhibit "B" is a calculation showing the change in the annual depreciation expense that would result with the approval of the proposed accrual rates.

Applicant, further requests authority from your Commission to make adjustments to the depreciation reserve for the Applicant's various plant accounts as shown on Exhibit "C". Approval of these proposed entries will result in better correlation of the reserve account balances with the age distribution of the invested dollars for each plant account. Further, the Applicant requests that it be permitted to amortize the total adjustment shown on Exhibit "C" of (\$1,719) over one year, effective January 1, 2004. Applicant proposes to book this adjustment in Account 403.1, Depreciation and Depletion Expense.

Respectfully Submitted,

Edward J. Bonk  
President  
Brainard Gas Corporation  
4369 Brainard Road  
Orange Village, Ohio 44022
