RATIONALE FOR PROPOSAL

For corporate and business reasons, LMC desires to realign its direct and indirect subsidiaries. The internal corporate restructuring proposed by the Parties involves the transfer of one hundred percent (100%) of LMGT Services' outstanding stock from LMGT to LMC, thus making LMGT Services a direct, wholly owned subsidiary of LMC. The ownership structure relevant to LMGT Services before and after this transaction is shown on the organizational charts attached hereto as *Exhibit A*.

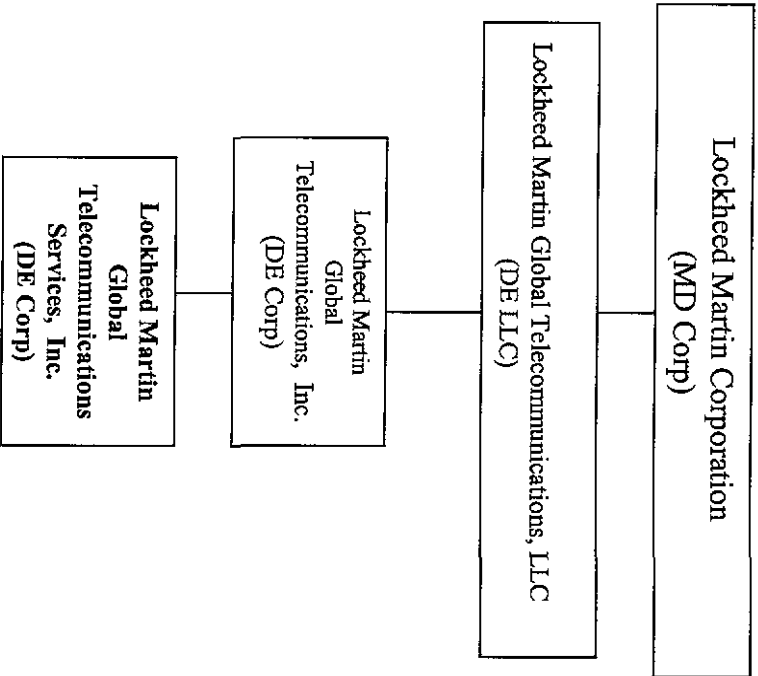

The minor restructuring proposed by the Parties will not adversely affect the public interest. This transaction involves no change to the entity which will be offering telecommunications services to customers in Ohio, or to the rates, terms and conditions of the services to be offered in Ohio. Moreover, this transaction does not affect the technical, managerial or financial qualifications of LMGT Services to provide telecommunications services in Ohio, as the continued ownership and control of LMGT Services by its ultimate parent, LMC, ensures the continued availability of identical technical, managerial and financial resources. The day-to-day operations of the company, including its existing regulatory and customer service personnel, will remain unchanged. Thus, the proposed restructuring holds no disadvantages for customers in Ohio and elsewhere.

In Ohio, LMGT Services will compete with numerous other telecommunications providers. Because the public interest is best served by assuring the presence of numerous competitors in the market for telecommunications services, it is important to provide such competitors with the flexibility to arrange their ownership structure in the manner they deem most appropriate to carry on their business, to the extent the public is not adversely affected. To deny such flexibility would discourage new competitors from entering the market for telecommunications services in Ohio, and would encourage existing competitors to seek a more favorable regulatory environment elsewhere. The Parties believe that this consideration underscores the benefits to the public of the restructuring proposed herein.

Note: The Lockheed Martin Corporation is composed of a considerable number of subsidiary entities, with operations which are essentially unrelated to the provision of regulated intrastate telecommunications services or to the specific operations of Lockheed Martin Global Telecommunications Services, Inc. (LMGTS). The majority of LMC subsidiaries are not shown in this chart.
