CUSTOM LOCAL AREA SIGNALLING SERVICES (CLASS) (Continued)

8. Caller ID Plus

Allows the customer to view the name and telephone number of the calling party when receiving a telephone call. The name and telephone number of the calling party is displayed on a customer-provided display device. However, the calling party may subscribe to services that will prevent the disclosure of their name and telephone number (see section 4, sheet 19, 20, 21). In such instances, a privacy indicator will appear on the customer-provided display device instead of the calling party's name and telephone number.

9. Anonymous Call Rejection

Allows the customer to reject those calls from which a privacy indicator is received (meaning the calling party chose to keep his number private). The customer activates the service by dialing \*77 from a touch tone phone or 1177 from a rotary dial phone.

The calling party will receive a recorded announcement indicating that the person they are calling does not wish to receive calls from callers who choose to block their number. The customer deactivates the service by dialing \*87 from a touch tone phone or 1187 from a rotary dial phone.

10. Privacy Package

Includes Caller ID Plus, Anonymous Call Rejection, and Call Screening. Available to Residential customers only.

11. Usage-Sensitive Repeat Dialing

Allows a customer to pay for Repeat Dialing on a per-use basis. The per-use charge will be incurred upon dialing the Repeat Dialing activation code. At the request of a customer who does not subscribe to this feature on a monthly basis, access to this feature on a usage-sensitive basis may be blocked, at no charge to the customer.

12. Usage-Sensitive Call Return

Allows a customer to pay for Call Return on a per-use basis. The per-use charge will be incurred upon dialing the Call Return activation code. If the called line is idle, the Call Return request completes, irrespective of whether or not the called party answers. If the called line is busy, the customer is so notified when Call Return is activated. At the request of a customer who does not subscribe to this feature on a monthly basis, access to this feature on a usage-sensitive basis may be blocked at no charge to the customer.

13. Caller ID on Call Waiting

(N)

This combined service provides the customer with the name and/or telephone number of the person trying to reach him or her while the customer is on another call. As with the Caller ID with Name service, the calling party may use per call blocking or subscriber to per line blocking service which will prevent the disclosure of his or her telephone number and name. In such instances, a privacy indication will appear on the customer-provided display device instead of the calling party's telephone number and name. Subscription to Caller ID with or without Name and Call Waiting is required.

14. Convenience Package\*

(N)

Includes Caller ID Plus, Voice Mail, and Call Waiting

\*This package includes an unregulated service that is not under the PUCO's jurisdiction.
