

INVESTIGATION REPORT

CONSTRUCTION NOTICE

Project Name: State Route 82 Widening Project

Case No. 03-1992-EL-BNR

Company Name: American Transmission Systems, Inc.

Date of Inspection: 7 October 03

Field Visit: J. O'Dell *JO*

Project Description: This project involves the relocation of one single circuit 138 kV transmission line structure. This relocation is necessary to accommodate the proposed road widening of State Route 82.

Site Description: The project area is located in the City of Strongsville, Cuyahoga County. The new structure will be relocated approximately 20 feet to the north of the existing structure. Land use in proximity to the project consists of railroad and highway uses.

Comments/Concerns: The construction of this project should pose only minimal negative social and environmental impacts.

Disposition: Approval X Disapproval
