CENTREX 2000 SERVICE

B. SYSTEM CONFIGURATION ELEMENTS (Cont'd)

1. Centrex 2000 Service Lines and Features (Cont'd)

b. Service Line Restrictions (Cont'd)

- (1) Incoming Restricted - prevents the service line from terminating a call from outside of the Centrex 2000 system. Restricted calls are routed to a recorded announcement. Calls over tie lines terminating in the Centrex 2000 system are not restricted.
- (2) Outgoing Restricted - prevents the service line from originating a call to a location outside of the Centrex 2000 system. Calls to Dial "0" attendant are also restricted.
- (3) Fully Restricted - combines the incoming and outgoing restrictions. Fully restricted service lines can only originate and terminate calls within the Centrex 2000 system.
- (4) Fully Restricted - Denied Dial Tone - for use with loud speaker paging systems.

c. Centrex 2000 Optional Features for Service Lines

- (1) The following optional features are available for Basic and Deluxe Service Lines:

- (a) Hunting Service
- (b) Toll Restriction
- (c) Uniform Call Distribution
- (d) AreaWide Centrex
- (e) Call Waiting Terminating
- (f) Calling Name and Number
- (g) Anywhere Call Forwarding (Deluxe Service Lines only)
- (h) Take Two Service

(N)

CENTREX 2000 SERVICE

B. SYSTEM CONFIGURATION ELEMENTS (Cont'd)

1. Centrex 2000 Service Lines and Features (Cont'd)

c. Centrex 2000 Optional Features for Service Lines (Cont'd)

(2) The following optional features are available for Electronic Service Lines:

- (a) AreaWide Centrex
- (b) Call Waiting Terminating
- (c) Call Restriction Levels
- (d) Circuit Switched Data Hunting
- (e) Custom Set Configuration
- (f) Hunting Service (Note)
- (g) Secondary Telephone Number
- (h) Toll Restriction
- (i) Uniform Call Distribution
- (j) Calling Name and Number
- (k) Anywhere Call Forwarding
- (l) Take Two Service

(N)

(3) The following optional features are available for Packet Switched Data Channels. These features may be used with a 64 kbps B channel packet service or a 9.6 kbps D channel packet service.

- (a) Additional Logical Channels
- (b) Closed User Group
- (c) Permanent Virtual Circuit
- (d) X.25 Hunt Group

2. Centrex 2000 Attendant Lines and Features

a. Attendant Lines

An attendant line provides the point of termination for the customer's main directory number. From this line(s) the attendant can assist service lines in making calls. The attendant line can be accessed from within the Centrex 2000 group by dialing "0". Two types of attendant lines are available: Basic, which uses analog technology, and Electronic, which uses ISDN technology.

NOTE: Adding Hunting Service to an Electronic Station Line removes the Multiple Call Appearance and Shared Call Appearances features from that line.

CENTREX 2000 SERVICE

D. REGULATIONS (Cont'd)

1. Provision of Service (Cont'd)

- h. The initial charge for optional features for service lines and attendant lines found in paragraphs F.1.c. and F.2.b. following, is waived when the features are purchased during the initial line installation. When multiple features are added to service lines or attendant lines at the same time, but after the initial line installation, the initial charge applies only once per line. The Custom Set Configuration, Secondary Telephone Number, Area Wide Centrex and **Take Two** options are exceptions. The initial charges for these features always apply in full. (N)

2. Standard Intercept Service

Incoming calls (either DID or intercommunication) to either a vacant or disconnected number within the number assignment allocated to the Centrex 2000 system will receive a recorded announcement stating that the caller has reached a non-working number. Intercept service on the main telephone number listed in the directory, with a referral to a new number, will be provided upon complete disconnection of the entire system.

3. In connection with Centrex 2000 service, the Telephone Company will require space located on the customer premises for distribution equipment associated with the system. In some cases, because of service requirements of the customer, power may also be required.

CENTREX 2000 SERVICE

D. REGULATIONS (Cont'd)

12. Service orders will be accepted by the Telephone Company only from the Telephone Company's customer; however, the Telephone Company will respond to repair and maintenance requests from others provided that the end user is responsible for any maintenance of service charges that may be billed by the Telephone Company.
13. Migration from Centrex 90, ESSX-1 and Centrex
 - a. ESSX-1, Centrex and Centrex 90 customers may change their systems to Centrex 2000 service. Termination charges for the ESSX-1, Centrex and Centrex 90 services and features which are converted to Centrex 2000 will be waived.
 - b. When converting from ESSX-1, Centrex and Centrex 90 to Centrex 2000 service, a customer may sign a contract for any period of time greater than or equal to the remaining period on the ESSX-1, Centrex and Centrex 90 contract. If the remaining period on the ESSX-1, Centrex and Centrex 90 contract falls between the standard periods offered by Centrex 2000 and the customer does not wish to contract for a longer period, a contract for the remaining period will be offered at the rates of the next shorter standard contract and the contract expiration date will equal the original contract expiration date.
 - c. If a ESSX-1, Centrex or Centrex 90 customer converts to Centrex 2000 with less than one year remaining on the existing contract, the minimum service period in paragraph D.1.e. preceding will apply.
14. Retaining two telephone numbers when upgrading from business access line service (Take Two Service) (N)
 - a. When upgrading from business access line service the customer has the option to retain two of their current telephone numbers.
 - b. The lines associated with these numbers will be equipped with the applicable Centrex 2000 features and will reflect the applicable Centrex 2000 line rates.
 - c. The lines associated with these numbers will not be part of the Centrex 2000 4-digit dial plan.
 - d. The nonrecurring charge associated with the Take Two Service will be applied once when two telephone numbers are retained.
 - e. Two is the maximum number of telephone numbers that may be retained by a customer in this situation.

LOCAL EXCHANGE SERVICE

SECTION 5 OUT OF TERRITORY LOCAL EXCHANGE SERVICES (cont'd)

5.5 CENTREX SERVICE (cont'd)

5.5.4 Regulations

1. Provision of Service

- a. Centrex service is furnished subject to the capability, capacity and availability of central office switching equipment and outside plant facilities.
- b. Centrex service requires a minimum of 4 service lines. A customer requiring fewer than 4 service lines will be charged for the minimum of 4 service lines.
- c. An existing Centrex customer may move the location of the Centrex service, subject to reapplication of initial charges for the service lines.
- d. Some features, either standard or optional, may not be available in all central offices due to the equipment and software deployed in the office.
- e. The minimum service period for Centrex is one year. If service lines are purchased on a month to month basis, the minimum number of lines specified in paragraph 1.b. preceding must be maintained for at least 12 months before service is terminated, in order to avoid termination charges. If a customer terminates service prior to 12 months, the termination charge is calculated as follows:

$$\begin{array}{l} \text{[Sum of all Monthly Recurring Charges from service and attendant lines]} \\ \text{X [12 - the number of months in service]} \end{array}$$

- f. Centrex service cannot be used to provide residence service for colleges, universities, and similar educational institutions.
- g. The rates and charges following apply to standard installation of Centrex service designed by the Company. Where a customer desires a special type of installation or when the conditions imposed by the customer, such as time and place involved, make installation abnormally costly, additional charges based on actual costs plus contribution apply.
- h. The initial charge for optional features for service lines and attendant lines in Section 5.5.6, paragraph 1.c following, is waived when the features are purchased during the initial line installation. When multiple features are added to service lines or attendant lines at the same time, but after the initial line installation, the initial charge applies only once per line. The Custom Set Configuration, Secondary Telephone Number, Area Wide Centrex and Take Two options are exceptions. The initial charges for these features always apply in full.

LOCAL EXCHANGE SERVICE

SECTION 5 OUT OF TERRITORY LOCAL EXCHANGE SERVICES (cont'd)5.5 CENTREX SERVICE (cont'd)5.5.4 Regulations (cont'd)

17. Retaining two telephone numbers when upgrading from business access line service (Take Two Service) (N)
 - a. When upgrading from business access line service the customer has the option to retain two of their current telephone numbers.
 - b. The lines associated with these numbers will be equipped with the applicable Centrex features and will reflect the applicable Centrex line rates.
 - c. The lines associated with these numbers will not be part of the Centrex 4-digit dial plan.
 - d. The nonrecurring charge associated with the Take Two Service will be applied once when two telephone numbers are retained.
 - e. Two is the maximum number of telephone numbers that can be retained by a customer in this situation. (N)

5.5.5 Centrex Term Payment Plan (CTPP)

1. Centrex service is offered under a Centrex Term Payment Plan (CTPP) option.
2. The CTPP option allows a customer to pay a fixed rate for Centrex service lines over one of several optional payment periods.
3. A payment period is the period of time selected by the customer from those currently offered by the Company, over which a specific rate is paid.
4. During the effective term of the selected payment period, the contracted monthly rate of a payment period is not subject to a Company-initiated rate change.
5. Any CTPP calculation which involves rounding will be rounded up to the next higher whole number.
6. An existing Centrex service customer may move the location of the Centrex service subject to reapplication of initial charges, and retain the CTPP at the rates in effect at the time the customer subscribed to the CTPP. Termination charges as specified in paragraph 9 following are applicable if a customer moves the Centrex service to a location where central office capacity or outside plant facilities are not available. If a customer reduces service in conjunction with a move, termination charges for the removed service apply as specified in paragraph 9 following. If a customer with Electronic Service Lines moves to a location where Electronic Service Lines are not available, Deluxe Service Lines will be substituted. The Deluxe Service Line rate will be calculated as if the customer had originally purchased the Deluxe Service Lines instead of Electronic Service Lines.
7. An existing Centrex service customer who adds to or modifies their Centrex service will be charged the Centrex rates listed in this tariff provided existing central office capacity and outside plant facilities are available. Lines may also be added with a new CTPP contract or on a month to month basis. The term of a new contract must be shorter than the time remaining in the longest current contract used in the Centrex system. New contracts will use current tariffed rates.
8. A customer who removes Centrex lines and does not disconnect the entire Centrex service will incur a termination charge as specified in paragraph 9 following for the amount of service which is removed, or continue to pay the contract amount.
