Re: Baymiller Street Crossing in Cincinnati, Ohio

Dear Ms. Thomas-Dalton:

City staff has been in contact with Mr. M. C. Burkart, Regional Vice President of RailAmerica, regarding their request to downgrade the crossing protection at Baymiller Street. Mr. Burkart has indicated the Railroad Company's willingness to replace the automatic equipment in the event that train traffic increases to the point that flagging operations at this crossing are no longer practical. In accordance with this agreement as shown on the attached letters of April 1st and April 17th, 2003 from Mr. Burkart, the City of Cincinnati has no objection to this action. If any further information is needed please contact Cincinnati Traffic Engineering Division staff member David Rupe at (513) 352-3747. Your assistance and that of your staff is greatly appreciated.

Sincerely,

Steven G. Bailey, P.E.
City Traffic Engineer
