CENTREX 2000 SERVICE

D. REGULATIONS (Cont'd)

11. Customer access treatment code restrictions allow the creation of subgroups within the Centrex 2000 system to provide additional restriction of access functions. Codes which are part of the system numbering plan may be denied or made accessible to subgroups of lines by assigning to each line within the system a customer access treatment (CAT) category. Each CAT category defines which private facility groups and features can be accessed. For example, service lines are restricted from a particular private facility if the CAT category of the lines does not allow access. Since a system is allowed multiple CAT categories, flexible control of the facilities is possible. The CAT categories are associated with dialing plan codes which access private facilities and also codes associated with features that are assigned to the system rather than to individual lines within the group.
12. Direct interconnection of resale or sharing systems or a combination of Shared Tenant Service and Centrex systems serving different resale/sharing systems is prohibited.
13. Intercom calling between unaffiliated end users of Centrex-based resale or sharing systems is prohibited. Where customer is in violation of this regulation, the Telephone Company will promptly notify the customer of the violation and the customer must discontinue such use or correct the violation. The customer's failure to discontinue such use or correct the violation will result in the suspension or disconnection of the customer's service until the customer complies with the provisions of this tariff.

CENTREX 2000 SERVICE

D. REGULATIONS (Cont'd)

14. Service orders will be accepted by the Telephone Company only from the Telephone Company's customer, however, the Telephone Company will respond to repair and maintenance requests from others provided that the end user is responsible for any maintenance of service charges that may be billed by the Telephone Company.
15. Migration from Centrex 90
  - a. Centrex 90 customers may change their systems to Centrex 2000 service. Termination charges for the Centrex 90 services and features which are converted to Centrex 2000 will be waived.
  - b. When converting from Centrex 90 to Centrex 2000 service, a customer may sign a contract for any period of time greater than or equal to the remaining period on the Centrex 90 contract. If the remaining period on the Centrex 90 contract falls between the standard periods offered by Centrex 2000 and the customer does not wish to contract for a longer period, a contract for the remaining period will be offered at the rates of the next shorter standard contract and the contract expiration date will equal the original contract expiration date.
  - c. If a Centrex 90 customer converts to Centrex 2000 with less than one year remaining on the existing contract, the minimum service period in paragraph D.1.e. preceding will apply.
16. Migration from ESSX-1 and Centrex
  - a. Centrex and ESSX-1 customers may change their systems to Centrex 2000 service. Termination charges for the Centrex and ESSX-1 services and features which are converted to Centrex 2000 will be waived.
