Electric Transmission and Distribution System ) Case No. 03-2080-EL-ATA  
and to Establish a Capital Investment )  
Reliability Rider to be Effective after the )  
Market Development Period. )

ENTRY

The Legal Director finds:

- (1) On January 10, 2005, at approximately 12:43 p.m., the Legal Department was conducting a test of the Commission's electronic filing system. A draft Commission entry in these cases was erroneously included in that testing process. The draft entry may have been distributed by email by the Docketing Information System earlier this morning. An explanation included with the test electronic filing stated that a hard copy of the document had been filed on January 5, 2005. Because you are on the service lists for documents filed in these

This is to certify that the images appearing are an accurate and complete reproduction of a case file document delivered in the regular course of business.

cases, you may have been served electronically with a copy of the draft entry.

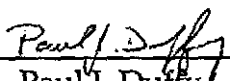

- (2) If you did receive a copy of the draft Commission entry, be advised that there was no entry considered by the Commission in these cases at its January 5, 2005, meeting; that the Commission did not hold a meeting on January 10, 2005; and the draft Commission entry erroneously included in the testing process did not include any indication that the document has been filed in the Commission's journal on any date.
- (3) If you did receive this morning a copy of a draft Commission entry in these dockets, be advised that the entry has not been considered by the Commission and should be disregarded.

It is, therefore,

ORDERED, That the above findings be observed. It is, further,

ORDERED, That a copy of this entry be served upon all parties of record.
