Columbus, OH 43215-3793

Transmittal Letter
Revised Tariff Sheets Filed Pursuant to the
Commission's Order in Case No. 83-464-TP-COI
and
Case No. 90-5023-TP-TRF

Dear Ms. Crockron:

Revised tariff sheets have been filed with the FCC to amend Verizon Tariff FCC No. 14, Facilities for Interstate Access, in which Verizon North Inc. concurs for intrastate applications.

In accordance with your Commission's Order in Case No. 83-464-TP-COI, we are filing four (4) copies of these revised tariff sheets.

Transmittal No. 92- Effective October 6, 2001

This filing proposes the following changes for Local Area Network (LAN) Extension Service:

- Changes the service date interval from a negotiated interval to a standard due date interval;
- Allows for upgrades of service to a higher speed without incurring termination liability; and,
- Eliminates the Channel Termination without Converter Service option. There are no customers impacted by this change.

Acknowledgement and date of receipt of this filing is requested.

Sincerely,

Jack W. Kennedy
President

FACILITIES FOR INTERSTATE ACCESS

5 SPECIAL ACCESS (Cont'd)

5.6 Rate Regulations (Cont'd)

5.6.18 LAN Extension Service

(A) General

LAN (Local Area Network) Extension Service, LES, provides fiber transport connectivity between two customer designated locations (CDLs). One of the CDLs can be provided as an Expanded Interconnection Service (EIS) arrangement as set forth in Section 17. LES is made available to network service providers, herein referred to as the customer, for provision of LES to their customers (end users).

LES is a point-to-point service, offered with a 10Mbps, 100Mbps or 1Gbps Ethernet interface connection, available where facilities and conditions permit. For locations where a customer requests LES and fiber facilities are not available, special construction charges may apply as set forth in Section 10.

The regulations and rates specified herein are in addition to the applicable regulations and rates specified in other sections of this tariff.

(B) Service Description

LES is provisioned over two dedicated fiber pairs between the customer and its end user's location. For EIS arrangements, LES is terminated at the customer's location by the use of a LES Cross Connect onto a fiber distribution panel. At the CDL, LES is connected, as specified by the customer, through the LES network interface. The LES network interface converts the optical signal to an electrical Ethernet signal at speeds of 10Mbps or 100 Mbps. The LES network interface converts the optical signal to an electrical Ethernet signal at speeds of 10Mbps or 100Mbps. The LES 1 Gbps interface is an optical signal. (T)

The Telephone Company's equipment at the customer's CDL must be on conditioned power circuits (surge protected); the Telephone Company recommends an uninterruptible power supply (UPS). (T)

The Telephone Company does not provide any service guarantees for LES, including credit for service outages.

LES is provisioned in accordance with the Service Date Intervals as set forth in Section 3.2.1. (C)
(C)

5 SPECIAL ACCESS (Cont'd)

5.6 Rate Regulations (Cont'd)

5.6.18 LAN Extension Service (Cont'd)

(C) Technical Specifications

(D)

(D)

(1) Limitations

(T)

The fiber optic specifications are single mode, 1310nm with the following dB loss:

- 10Mbps Ethernet – 20dB loss or less
- 100Mbps Ethernet – 26dB loss or less
- 1Gbps Ethernet – 18dB loss or less

The fiber optic specifications are single mode 1550nm with the following dB loss for:

- 1Gbps Ethernet (extended distance) - 26dB loss or less

The dB loss is measured to include the special transport facility when applicable and any local and intra-building fibers used in the provision of LES.

5 SPECIAL ACCESS (Cont'd)

5.6 Rate Regulations (Cont'd)

5.6.18 LAN Extension Service (Cont'd)

(F) Rate Regulations

All LES rate elements, with the exception of the LES Cross Connect, are offered in term plans of three and five years. The customer must designate on the Access Service Request (ASR) the term commitment, if applicable for LES.

- The customer may, at any time, upgrade the LES transmission rate without incurring termination liability as long as a term plan of equal or greater length than the original term plan is established. (N)
- The customer may at any time request to change from an existing term to a new term of equal or greater length without charge. (N)
- Cancellation of the service in whole or in part by the customer prior to the establishment thereof, will require payment to the Telephone Company of an amount equal to the total nonrecurring charges for the services ordered.
- Rate elements must be ordered under the same service term period.
- Inside moves, provided in accordance with Section 5.6.4(A), will not incur termination liability charges.
- Outside moves, provided in accordance with Section 5.6.4(B), will allow the customer to retain the same payment period. Any other move will be treated as a disconnect of the service and termination liability charges will apply.
- Once the term has expired, prevailing rates for the expiring term plan will apply.
- The Special Access Surcharge set forth under 5.6.9 does not apply to LES connections.

(1) Minimum Period

The minimum term for LES is three years. The minimum period for the LES Cross Connect is one month.
