SECTION 3. DESCRIPTION OF SERVICES AND RATE SCHEDULE3.1 Timing of Billing

On direct dialed outbound and inbound calls provided pursuant to this Tariff, and except as otherwise stated in this tariff, chargeable call duration accrues from the time the called party answers, as indicated by Carrier's receipt of answer supervision, until one of the parties hangs up, as detected by Carrier's equipment.

Carrier may receive answer supervision signaling directly from local exchange carriers, may employ software answer supervision, or may receive answer supervision from other interexchange carriers. These other interexchange carriers may themselves employ either local exchange carrier-provided answer supervision or some other method of determining called party on-hook or off-hook status.

3.2 Dedicated Access to Long Distance

This interLATA service provides a dedicated circuit from the Customer's telecommunications network to TUSA's long distance network. Calls are billed in 6 second increments after an 18 second minimum call duration.

Rate per minute:           \$0.100

Charges are based on call volume and service commitments, and may be subject to Customer-specific contractual arrangements.

3.3 Additional Services

TUSA may provide other Services at the Customer's request, subject to Customer-specific contractual arrangements.
