P. U. C. O. NO. 1
RESALE AND SHARING TARIFF

A. APPLICATION

This Section contains regulation, rates and charges applicable to the Resale and Sharing of Local Exchange Telephone Service required by The Public Utilities Commission of Ohio Opinion and Order for Case No. 85-1199-TP-COI as entered in the Journal August 19, 1986.

B. GENERAL

1. Except where specifically noted herein, this tariff is not intended to apply to the resale of local exchange service by certified local exchange carriers.
2. This tariff does not permit, by a certified local exchange carrier or any other entity, the purchase of local residential service for resale as business service. Such resale is prohibited.
3. The Telephone Company will permit the resale or sharing of local exchange service. Resale or sharing of local exchange service is provided on non-residence individual lines or trunks. The customer's service may be extended to:
 - a. Tenants and guests of nursing homes, retirement homes or villages, apartments and/or apartment complex and other developments for residential use (i.e. Mobile Home Parks),
 - b. Persons temporarily subleasing a customer's residential premise,
 - c. Patrons of non-residence customers who resell or share their service or equipment.
4. For the purpose of this tariff "resale and sharing of local exchange service" shall be interpreted in the following manner:
 - a. RESALE - The reselling by a customer of the customer's service to others for profit.
 - b. SHARING - The shared use by a customer with others on a shared cost basis of the customer's service.
 - c. LOCAL EXCHANGE SERVICE - Telecommunications service provided within local exchange service areas in accordance with the tariffs. It includes the use of exchange facilities required to establish connections between stations within the exchange and between stations and the toll facilities serving the exchange.
 - d. Other applicable interpretations are those set forth under title "Definitions" Chapter 4901:1-5-02 of the Code of Rules and Regulations.
5. The Telephone Company will continue to offer Local Exchange Service to subscribers of the reseller/sharer customer at applicable rates and charges as filed under the General Exchange Tariff then on file with The Public Utilities Commission of Ohio.

P. U. C. O. NO. 1
RESALE AND SHARING TARIFF

6. The Telephone Company will not be responsible for the manner in which the use of service or charges are allocated to others by a customer who resells or shares service. All applicable rates and charges for such service will be billed to the customer.
7. Service orders will be accepted by the Telephone Company only from the customer; provided, however, that the Telephone Company will respond to repair and maintenance requests from others and, in such circumstances, the customer is responsible for any maintenance of service charge that may be billed by the Telephone Company.
8. Resale or STS access line service will be provided on a measured rate basis pursuant to rates set forth in the local exchange tariff. Where measured (or message) service is not available, the reseller or STS provider shall pay the appropriate flat business individual or trunk rate. Should the Company acquire the capability to offer measured (or message) rate service, it will file an application pursuant to section 4909.18 Revised Code, to institute measured (or message) service charges for resellers and STS providers.

C. REGULATIONS

1. Access Line
Resale and Sharing of local exchange service shall be provided on a Non-Resident Access Line or trunks basis only.
2. Inter-Connection
 - (a) Inter-Connection of the resale/sharing facilities with the Telephone Company network shall be in accordance of FCC's Part 68 Standards for interconnection.
 - (b) CPE and intrasystem wiring used in the reseller/sharing operation shall meet FCC part 68 Standards.
3. Restrictions
The following restrictions shall be applicable to Resale and Sharing operations:
 - (a) A reseller/sharer may provide service only within a single building, or a contiguous complex of buildings under common ownership or management (such complex may be intersected by public thoroughfares provided that the property segments created would be continuous in the absence of the thoroughfares);
 - (b) Where separate buildings are involved, they must have a related business purpose (e.g., industrial park, shopping center, university, etc.);
