Intrastate Long Distance Services Tariff

6. Application of Rates

(A) Long Distance Message Telecommunications Service (LDMTS)

Long Distance Message Telecommunications Service (LDMTS) is offered on a Direct Distance Dialed basis or an Operator Assisted basis. The rates are specified in Sections 7 and 9 following.

The measured usage rates for Intrastate LDMTS will depend on the time periods in which the call occurs. The rates are charged in increments of an initial rate period and additional minute rate period. The initial rate period is for connections of one minute or any fraction thereof. Each additional minute is billed on a per minute of use or any fraction thereof that the connection continues beyond the initial rate period. If a call is initiated in one rate period, and continues into another rate period, the per minute charges will change accordingly for any full minutes occurring in the next rate period. The rate schedules in Sections 7(A) and 7(B) following are time-of-day sensitive. The rates are divided among day, evening, and night rate periods. Volume discounts may apply depending on usage.

The unit of measure used for timing of messages is one minute increments.

Fractional rates will be rounded to the nearest penny using the conventional rounding method.
