d. Speed Calling - Short List

the list of eight (8) called numbers as often as desired. This service is available on rotary and push button telephone sets.

Monthly recurring charge\$1.00

e. Speed Calling - Long List

This feature enables the customer to dial with a two-digit code up to thirty (30) frequently called numbers, both local and long distance. The customer can change the list of thirty (30) called numbers as often as desired. This service is available on rotary and push button telephone sets. A customer must choose between the Short List or the Long List Feature as both cannot be used simultaneously on a single line.

f. <u>Call Forward – Busy</u>

(N)

This service allows incoming calls to a busy line to be forwarded to a predetermined telephone number.

- 2. A monthly reduction of \$1.00 in total applies when 3 or more Custom Calling features are requested by the customer.
- 3. The above Custom Calling rates apply to individual residence and business access lines, including Key Systems and PBX.
- 4. The Company will provide from time to time a 30-day free trial of its Custom Calling Services to any customer that has not previously tried or subscribed to the service being requested, thereby limiting a customer to one free trial offer for each Custom Calling Service.

Per Call Blocking

Enables customers to prevent the disclosure of their telephone number on a per call basis to the called party. The disclosure of the calling party's number can be prevented on a per call basis by dialing a preassigned access code before making a call. This action must be repeated each time a call is made to prevent the disclosure of the calling party's telephone number. If the called party has a display device, a privacy indication will appear instead of the calling party's telephone number. Per Call Blocking will be provided on a universal basis to all eligible customers.

Per Line Blocking

Enables customers to prevent the disclosure of their telephone number on all outgoing calls, without the necessity of an activation code. If the called party has a display device, a privacy indication will appear instead of the calling party's telephone number. Per Line Blocking will be provided at no monthly charge on an optional basis to non-published customers. The service is also available to published customers at a monthly charge of \$ 1.00. Law Enforcement, Domestic Shelters and other special agencies will be offered free RECEIVED public and semi-public service customers. Per Line Blocking. Per Line Blocking will not be avail-

m. Alert Line Service

This service allows the customer to place a call to a pre-assigned number without dialing by simply remaining off-hook for a given interval of time. If the customer begins dialing before the time period expires, the call will proceed normally.

However, if dialing has not started before the time interval expires, the call is automatically routed to the preassigned number. The pre-assigned number can be an intercom code, or a local or toll directory number. This service is provided in conjunction with basic residential or business service, for which rates can be found in Section 1 of this Tariff.

2. Special Notice

(S)

BriTe Star calling features cannot be functional unless both the called and calling parties are served by, and the call is routed through, appropriately-equipped central offices, and routed over appropriately-equipped facilities for calls between such equipped central offices. BRiTe Star will be available to residential and business customers, on a per line basis.

Telemarketers are prohibited from blocking the disclosure of their telephone number when placing calls. Upon receiving complaints that a telemarketer is blocking the disclosure of its telephone number, the Company will investigate the complaints and terminate the number blocking service where appropriate.

CUSTOM LOCAL AREA SIGNALING SERVICES (CLASS)

(T)

1. General

a. Per Call Blocking

Enables customers to prevent the disclosure of their telephone number on a per call basis to the called party. The disclosure of the calling party's number can be prevented on a per call basis by dialing a pre-assigned access code before making a call. This action must be repeated each time a call is made to prevent the disclosure of the calling party's telephone number. If the called party has a display device, a privacy indication will appear instead of the calling party's telephone number. Per Call Blocking will be provided on a universal basis to all eligible customers.

b. Per Line Blocking

Enables customers to prevent the disclosure of their telephone number on all outgoing calls, without the necessity of an activation code. If the called party has a display device, a privacy indication will appear instead of the calling party's telephone number. Per Line Blocking will be provided at no monthly charge on an optional basis to non-published customers. The service is also available to published customers at a monthly charge of \$1.00. Law Enforcement, Domestic Shelters and other special agencies will be offered free Per Line Blocking. Per Line Blocking will not be available to public and semi-public service customers.

m. Alert Line Service

This service allows the customer to place a call to a pre-assigned number without dialing by simply remaining off-hook for a given interval of time. If the customer begins dialing before the time period expires, the call will proceed normally.

However, if dialing has not started before the time interval expires, the call is automatically routed to the pre-assigned number. The pre-assigned number can be an intercom code, or a local or toll directory number. This service is provided in conjunction with basic residential or business service, for which rates can be found in Section 1 of this Tariff.

The Gold Calling Package B is available only in the New Bavaria and North Creek exchanges.

q. Platinum Calling Package*

(N)

This package includes Call Waiting, Call Forwarding, Three-Way Calling, Caller ID, Call Return, Repeat Dialing, Distinctive Ringing, and Voice Mail.

The Platinum Calling Package is available only in the Benton Ridge Exchange.

* These packages include an unregulated service that is not subject to the jurisdiction of the Public Utilities Commission of Ohio. The Company will follow the disconnection procedures set forth in Ohio Admin. Code 4901:1-6-21(C)(2)(b). If a customer fails to submit timely payment sufficient to cover the entire amount of the regulated and unregulated bundled package rate, the Company may discontinue the provision of any regulated and unregulated services.

EXHIBIT C

The Applicant, Benton Ridge Telephone Company, hereby proposes to offer its customers bundled service packages that combine certain Custom Calling Services and certain Custom Local Area Signaling Services (CLASS). Customers who subscribe to these packages will enjoy savings ranging from 27% to 52% over the rates if purchased on an individual basis. See Exhibit B of this Application for details of the bundled service packages.

The Applicant also proposes to discontinue offering two discounts available to customers who purchase Custom Calling Features and CLASS features. The first such revision to the tariff eliminates the monthly reduction of \$1.00 when a customer subscribes to three or more Custom Calling features. The Applicant has <u>no</u> customers currently receiving this discount. Because no customers will be affected by the deletion of the discount, the Applicant has not provided notice to its customers.

The Applicant will also discontinue offering the Monthly Subscription Rate Discount to customers who subscribe to multiple CLASS features. This revision to the tariff affects customers who subscribe to multiple CLASS features on a going forward basis only; current customers with multiple CLASS features will be "grandfathered" and will continue to receive the discounts. Accordingly, no customer notice has been provided.

The Applicant also hereby deletes references to "BriTe Star" features, and replaces that term with "Custom Local Area Signaling Service" ("CLASS") features, which is the name for this category of services most often utilized in the industry.
