

BEFORE

THE PUBLIC UTILITIES COMMISSION OF OHIO

In the Matter of the Joint Petition of)
Adams Rural Electric Cooperative, Inc.,) Case No. 03-2044-EL-PEB
and South Central Power Company,)
Requesting Revision to a Territorial)
Boundary Map.)

ENTRY

The Commission finds:

- (1) Adams Rural Electric Cooperative, Inc., (Adams) and South Central Power Company (South Central) are electric suppliers as defined in Section 4933.81, Revised Code.
- (2) Certification by the Commission of the territories of Adams and South Central was approved by Entries dated April 29, 1981, and April 8, 1981 in Case No. 78-1311-EL-ORD.
- (3) Adams and South Central have jointly petitioned the Commission to reallocate their service territories in Bratton Township, Adams County, Ohio. Specifically, they request the following relocation:

On quadrangle map V-12 include an overlap "A" by South Central in Adams certified territory. The property is located at 1391 Parker Ridge Rd., 2.5 miles west of St. Rt. 41.

- (4) In support of their request, the petitioners state that a customer is building within Adams service territory, however, due to the distance from Adams facilities, it would be very costly for the customer to receive service from Adams. It would be more feasible for the customer to receive service from South Central who has a service distance approximately 1,000 feet from the customer.
- (5) Section 4933.83 (E), Revised Code, provides in pertinent part:

Notwithstanding the effectuation of certified territories established by or pursuant to Sections 4933.81 to 4933.90 of the Revised Code, and the exclusive right of electric suppliers to serve within such territory, and notwithstanding any other provisions of such sections establishing rights of electric suppliers to furnish electric service, any two or more electric suppliers may jointly petition the Commission for the reallocation of their own territories and electric load centers among them and designating which portions of such territories and electric load centers are to be served by each of the electric suppliers.

This is to certify that the figures appearing are an accurate and complete copy of the case file document defined in the agenda of this business.
Technician JA Date Processed 11-25-03

- (6) No exception to the change described in Finding (3) has been brought to the Commission's attention.
- (7) The Commission finds that granting the requested relief will promote the purposes of Sections 4933.81 to 4933.90, Revised Code, and will further promote the provision of adequate service to all territories and electric load centers affected by the relocation. Accordingly, the Commission shall order the appropriate modification of the territorial boundary of Adams and South Central.

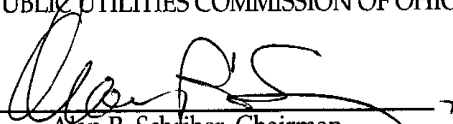

It is, therefore,

ORDERED, That the request of Adams and South Central to relocate their territory boundary is granted. It is, further,

ORDERED, That the change on quadrangle map V12 described in Finding (3), be approved to show the boundary line change. It is, further,

ORDERED, That a copy of this Entry be served upon each party of record.
